

New Stand Alone Coding System

SM-4 SERIES

TRAY CODER LABELING SYSTEM

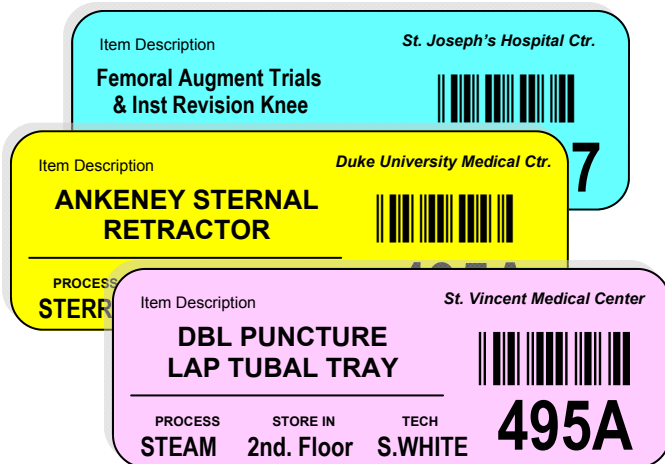

LABEL SIZE: 4" X 1.5"

System One Medical is proud to announce our New Stand-Alone Labeling System Series. These are the first fully integrated system units that allow you to code all your items under a complete stand alone environment. They offer enough system memory to save over 2,500 item numbers and their description. They are very user friendly and best of all it does not require a PC. The SM Series Printers offers a small footprint to save valuable working space area and they can be set anywhere in your department allowing you to create the labels closer to the items area. We offer four label colors for easy visual department or facility identification plus a very aggressive adhesive formula that assures that the label is secured and will not come off even on sterilization procedures.

- INDIVIDUALLY IDENTIFY ALL YOUR TRAYS
- STORES UP TO 2,500 INDIVIDUAL ITEMS
- PRINTS EXTRA LARGE ITEM NUMBERS FONTS

SM-1 Label Coder Kit

The SM-1 System "Coder Kit" (optional) offers over 100 of the most popular printed labels pre-loaded in the system for Central Supply and OR departments.

Custom labels can also be created and permanently saved in the system with the included software. The SM-1 offers enough memory to save hundreds of label formats and it does not require a PC!

No need to stock multiple printed labels anymore! The SM-1 smart printing station will provide them all on demand when you need them.
